Nobody else has what happens on your site. It earns the top of the range.

Rebar, rigging, drilling, harvest. Almost none of it has ever been recorded, which is exactly why it earns the high end.

Scarce work earns the most.	Field work is the rarest data there is. Rare means the top of the range.
Built for the strictest jurisdiction.	Holds up under GDPR, works councils, US state privacy law and India's DPDP Act.
Nothing identifiable leaves your building.	No names, no audio, nothing that points to a person.
Buyers are bound.	Training use only. No surveillance products, no resale, audit rights. You can strike buyers by name.
Paperwork before day one.	Impact assessment, data agreement and buyer license, in your hands before anything starts.

$3–6 per hands-on hour, per worker, paid to you every month.

100 workers · 6 hands-on hours a day · 22 days = **$39,600–79,200 a month.**

Illustrative figures. Terms set in your agreement.
