Your back of house is worth $3–6 an hour. Patients are never in the frame.

Sterile processing, pharmacy, lab, supply, linen, kitchen. That is where the value is.

Patient-free by design.	Nothing identifiable, of anyone, ever leaves your building. HIPAA agreement in place before day one.
Zero disruption.	No new steps, no IT, no training. We run the whole program on your floor.
Your IP stays yours.	Nothing proprietary leaves the building. You can veto anything. Competitors can be blocked from buying.
Live in weeks.	A site walk, a short briefing, and you're earning.

$3–6 per hands-on hour, per worker, paid to you every month.

100 workers · 6 hands-on hours a day · 22 days = **$39,600–79,200 a month.**
